SUMMARY

Senior Software Engineer with 4+ years building production React and Next.js applications, now expanding into full-stack engineering with Node.js, NestJS, and PostgreSQL. Experienced in embedding AI-assisted workflows — Claude Code, RAG, prompt engineering — into daily development and mentoring junior engineers. Currently building a full-stack AI orchestration platform end-to-end using NestJS, Drizzle ORM, TypeORM, and PostgreSQL.

EXPERIENCE

SolGuruz LLP — Ahmedabad | Senior Software Engineer

05/2024 – Present

- **Promoted to Senior Software Engineer**; mentor interns on React best practices and AI-assisted development workflows
- Shipped production features for **Nurses Now** (health-sector mediator platform — attendee management, GPS-based live provider tracking with real-time map updates over WebSocket, in-app chat) and **Dream Story** (social platform — chat, connections, personalized Dream Book) using React.js, Next.js, and TypeScript
- Integrated REST APIs and managed application state with Redux Toolkit and Tanstack (React) Query
- Set up a team **Claude Code workflow**: maintained a CLAUDE.md project-memory file documenting architecture and conventions, configured plugins for debugging, and authored best-practice guidelines adopted across the team
- Used AI prototyping tools (**Lovable**, **Bolt**) to rapidly mock up client-facing features — including a client-survey and data-analysis tool — for demo calls
- Built reusable component libraries in Storybook to maintain design consistency across two production platforms

Freelance | React JS Developer

12/2023 – 04/2024

- **Lyricsweb**: Implemented caching and SWR-based data fetching on a Next.js codebase; wrote automation scripts and fixed bugs to improve stability and performance

TrinaryBits Pvt Ltd — Gandhinagar | React JS Developer

01/2023 – 11/2023

- **BAS (Broker Accounting System)**: invoicing, accounting, contracts, and onboarding for sub-brokers and clients
- **Chang'd Agility**: a change-management platform replacing manual spreadsheet workflows for managers

DRC Systems — GiftCity | Software Developer (Internship)

07/2021 – 03/2022

- Built **HP LMS**, a training platform for new employees, using React and Django; improved **EcomShope**'s usability, speed, security, analytics, admin tooling, and payments

FEATURED PROJECT

Roast My App Idea — Multi-Agent AI Orchestration Platform

In Development · 2026

- Full-stack app that critiques and stress-tests startup/app ideas via sequential and parallel Claude API agent pipelines with streaming responses
- **Backend**: NestJS (modular architecture — auth, users, agents modules), PostgreSQL, Drizzle ORM & TypeORM, JWT auth with role-based guards
- **Frontend**: Next.js, React Query for state/data sync, Server-Sent Events for real-time streaming UI
- Deployed with a public demo link (added to Portfolio on release)

YouTube Clone — Full Stack Video Platform

In Development · 2026

- Video platform covering upload, transcoding, and adaptive playback, built to practice full-stack fundamentals beyond REST CRUD
- **Stack**: NestJS + PostgreSQL/Drizzle for backend services (auth, videos, comments), S3-compatible storage for media, Next.js frontend with React Query

TECHNICAL SKILLS

- **Frontend**: React.js, Next.js, Redux, Redux Toolkit, TypeScript, HTML/CSS/SCSS, Tailwind, Ant Design, React Hook Form, Storybook, Tanstack/React Query, React Native
- **Backend**: Node.js, Express.js, NestJS
- **Databases & ORMs**: PostgreSQL, MongoDB, TypeORM, Drizzle ORM
- **AI & Dev Tools**: Claude Code, Claude API (tool use, RAG, streaming), GitHub Copilot, Lovable, Bolt, Prompt Engineering, MCP
- **Other**: Git, Selenium (Python), Scripting & Automation

CERTIFICATIONS

- Anthropic Academy — Claude Code in Action
- Anthropic Academy — Building with the Claude API (Tool Use, RAG, Streaming)

EDUCATION

- 2021–2023 MCA — Shree Chimanbhai Patel Institute, Ahmedabad
- 2018–2021 BCA — Bholabhai Patel College of Computer Studies, Gandhinagar
